

MYTHICS

CONSULTING SERVICES

“Mythics Professional Services has played an invaluable role in our IT evolution. With big picture insight and impeccable Oracle expertise, Mythics has helped us take a measured path towards a more robust, agile, and responsive enterprise architecture.”

Dan Clarkson
COO
ADS Inc.

The Mythics Advantage

As enterprise organizations look to enhance IT computing capabilities in response to an ever-changing marketplace, they often rely on Oracle technology to provide the customized solutions that deliver solid technical and business benefits. Protecting clients against potential project delays and unexpected costs, Mythics Professional Services (MPS), the Oracle implementation consulting team at Mythics, provides clients with the expertise of seasoned professionals possessing a strong understanding of Oracle’s technical complexities and capabilities.

The Mythics Advantage

Leveraging a dedicated focus on Oracle technology, a comprehensive suite of Oracle-centric services, and a commitment to practical innovation, Mythics gives customers the extra advantage they need to reap a strong return from Oracle investments and the satisfaction that comes with the successful completion of enterprise-critical deployments.

We call it **The Mythics Advantage**.

In practice, The Mythics Advantage governs our daily business processes and enables a better working partnership with Oracle. It delivers everyday innovation and defines our commitment to superior client service. Most importantly, it ensures our client organizations enjoy successful Oracle deployments, stronger business operations, an enhanced bottom line, and better relationships with the citizens, employees, students or consumers they serve.
